

JOB DESCRIPTION

Job title: Senior Project Manager

Report to: Group Manager

Work location: Full-time Remote

Roles and Responsibilities:

- Responsible for the management of the entire product development cycle from definition/scope through implementation;
- This is a highly visible role requiring strong technical, leadership, project management, and communication skills;
- The role will both track and execute on such projects, completing key deadlines and utilizing resources efficiently.

Requirements:

Must have:

- 5+ years of experience as a Software Engineer in a senior leadership position (Tech Lead, Engineering Lead);
- 3+ years of software product management experience with a focus on Crypto/Blockchain;
- You have a basic understanding of crypto assets, Defi, NFT and a strong desire to learn more;
- Awareness of blockchain design decisions (on-chain vs off-chain, public network vs permissioned network, etc);
- Ability to work with developers, security, cryptographers, distributed system architecture;
- Experience at crypto exchanges or in financial services, ideally in payments, trading operations or technical support;
- Ability to manage stakeholders across the organization to drive mission-critical projects to completion. Escalate and problem solve with executive sponsors when projects are at risk;
- Understanding of how to manage various types of projects from kick-off to completion;
- Desired (not required): the first-hand experience implementing blockchain technology in an experiment or project;
- Inventory and track new project requests, and help prioritize them against existing projects;
- Demonstrate an ability to communicate complex technical concepts.

Nice-to-have:

- Understand the ecosystem behind the payment experience, facilitating transactions and managing crypto currencies;
- Be a self-starter, an enthusiast and passionate about crypto currency;

- You are self-motivated, attentive, and always follow through;
- Develop the program management systems and tools for teams as they grow;
- Have experience presenting and collaborating with cross-functional teams;
- Experience translating high-level business requirements into detailed functional requirements.

Benefits:

- Remote working with a flexible schedule (40 hrs/week);
- Opportunity to work with talented individuals from all over the world in one of the hottest and fast- growing industry;
- Generous sick leave and vacation leave;
- Competitive fiat salary and performance-based bonus.

How to apply:
